2 cm

Pour connaître votre taille, veillez à ce que le bagueier soit correctement imprimé en mesurant l'échantillon ci-dessus à l'aide d'une règle. Celui-ci doit mesurer 2cm. Si vous disposez d'une bague parfaitement ajustée, vous pouvez placer celle-ci sur le cercle dont le diamètre correspond. Assurez-vous de bien mesurer le diamètre intérieur. Si votre bague se trouve entre deux tailles, nous vous recommandons de choisir la taille supérieure.

| Circonférence du doigt | Diamètre de la bague | Taille Bague EUROPE | Taille Bague USA & UK | Taille Bague ASIE |
|---------------------------|-------------------------|------------------------|--------------------------|----------------------|
| en millimètres | en millimètres | | | |
